

# USB ELECTRONIC PROBE WITH READ OUT SOFTWARE

High Accuracy & Cost Effective solution for  
Precision Linear Measurements

## USB Electronic Probe:

Measuring Range	25mm
Resolution	0.1um
Accuracy	+/-1um
Connectivity	USB Output

## Read Out Software :

- Compatible to Windows 10 OS (Laptop / Desktop)
- Simple Installable Exe. file
- Data export to Excel format
- Error Compensation Facility
- Preset Facility
- Min / Max Options to capture the low / peak point automatically
- mm / inch selectable

## Application :

Calibration Laboratory & Standards Room - For Calibration of :

Plain Plug Gauge	Cylindrical Measuring Pins	Micrometer Setting Standards
Plain Snap Gauge	Cylindrical Setting Masters	Micrometer Head
Plain Width Gauge	Thread Measuring Wires	Dial Calibration Tester
Flish Pin Gauges	Thread Measuring Prisms	Coating Thickness Foils
Feeler Gauges	Gauge Blocks Accessories	Special OD & Thickness Gauges
